HealthPhone.com Announces Partnership with China's Largest Pharmaceutical Company

HealthPhone.com is proud to officially announce a joint partnership with Sanjiu Medical and Pharmaceutical Co., Ltd. - China's largest pharmaceutical company.

The joint partnership grants Canada's HealthPhone Corporation exclusive marketing rights to Sanjiu's most important new product; Herbal Granules Extract in North America.

"Single Chinese Herbal Granules Extract is an innovation of Traditional Chinese Medicine," said Mr. Richard Liu, CCO of Sanjiu Medical and Pharmaceutical Co. Ltd. "It is made from top quality, genuine raw herbs through extraction and processing by means of modern technology. This maintains the quality and taste of the raw herbs as well as the medical efficacy. The granules are extremely easy to store, convenient to use, economical and safe. Most important is that decoction is not necessary. Just add hot water to the granules and drink."

"This product is easier to dispense for pharmacists, because it is clean and the granules can be quantified," said Mr. Paul Li, CEO and President of E-Tech Canada Ltd. and HealthPhone Corporation. "More importantly, it is effective and convenient for the patient. I think this is a milestone in the modernization and popularity of Traditional Chinese Medicine. I predict that these granules will occupy a big market share, when compared with traditional raw herbal material."

The management of both companies will officially sign the contract making the deal official, at the HealthPhone.com Grand Opening Ceremony, on September 28, 2000. HealthPhone.com's launch begins with a cocktail reception at 11:30am, followed by demonstrations of acupuncture, Qi Gong and tele-medicine at 12:30pm. The contract signing will take place just before the all-you-can-eat buffet lunch at 1:30pm.

The HealthPhone Corporation manages the world's largest Chinese and alternative medicine resource on the Internet, where both patients and healthcare professionals can share their feelings, experiences and knowledge, without the traditional constraints of time, geography or economic class.

Sanjiu Medical and Pharmaceutical Co., Ltd. is one of the largest pharmaceutical companies in China. In 1999, the stock of the company was successfully listed on the domestic A-Stock Market in China. The company acquired 23 pharmaceutical enterprises around China, in recent years. Sanjiu Medical and Pharmaceutical Co., Ltd. has well over 1,000 products, from antibiotics to shark fins and through dedicated research methods, is constantly making new discoveries which increase their product line.

HealthPhone.com's launch will begin with a cocktail reception at 11:30am, followed by demonstrations of acupuncture, Qi Gong and tele-medicine at 12:30pm and an all-you-can-eat buffet lunch at 1:00pm. All the events take place on September 28, 2000 at the Embassy Suites Hotel, located at 8500 Warden Avenue, in Markham, Ontario, Canada.

The media is welcome to join us at the Grand Opening lunch. **Photo opportunities are available during the demonstrations and interviews with the presenters can be arranged. There will be informal discussion during lunch, at which time the media may ask questions of our spokesperson.**

E-Tech Canada and HealthPhone.com are members of Pearl Oriental CyberForce Limited, a listed company on the Hong Kong Stock Exchange.
